

Diploma in Medical Coding

- Medical coding involves converting medical reports into an alphanumeric coding system that is universally recognized
- Luminis recognised by AAPC (American Academy of Professional Coders), offers a course that provides a certificate with international acceptance

Course Specification

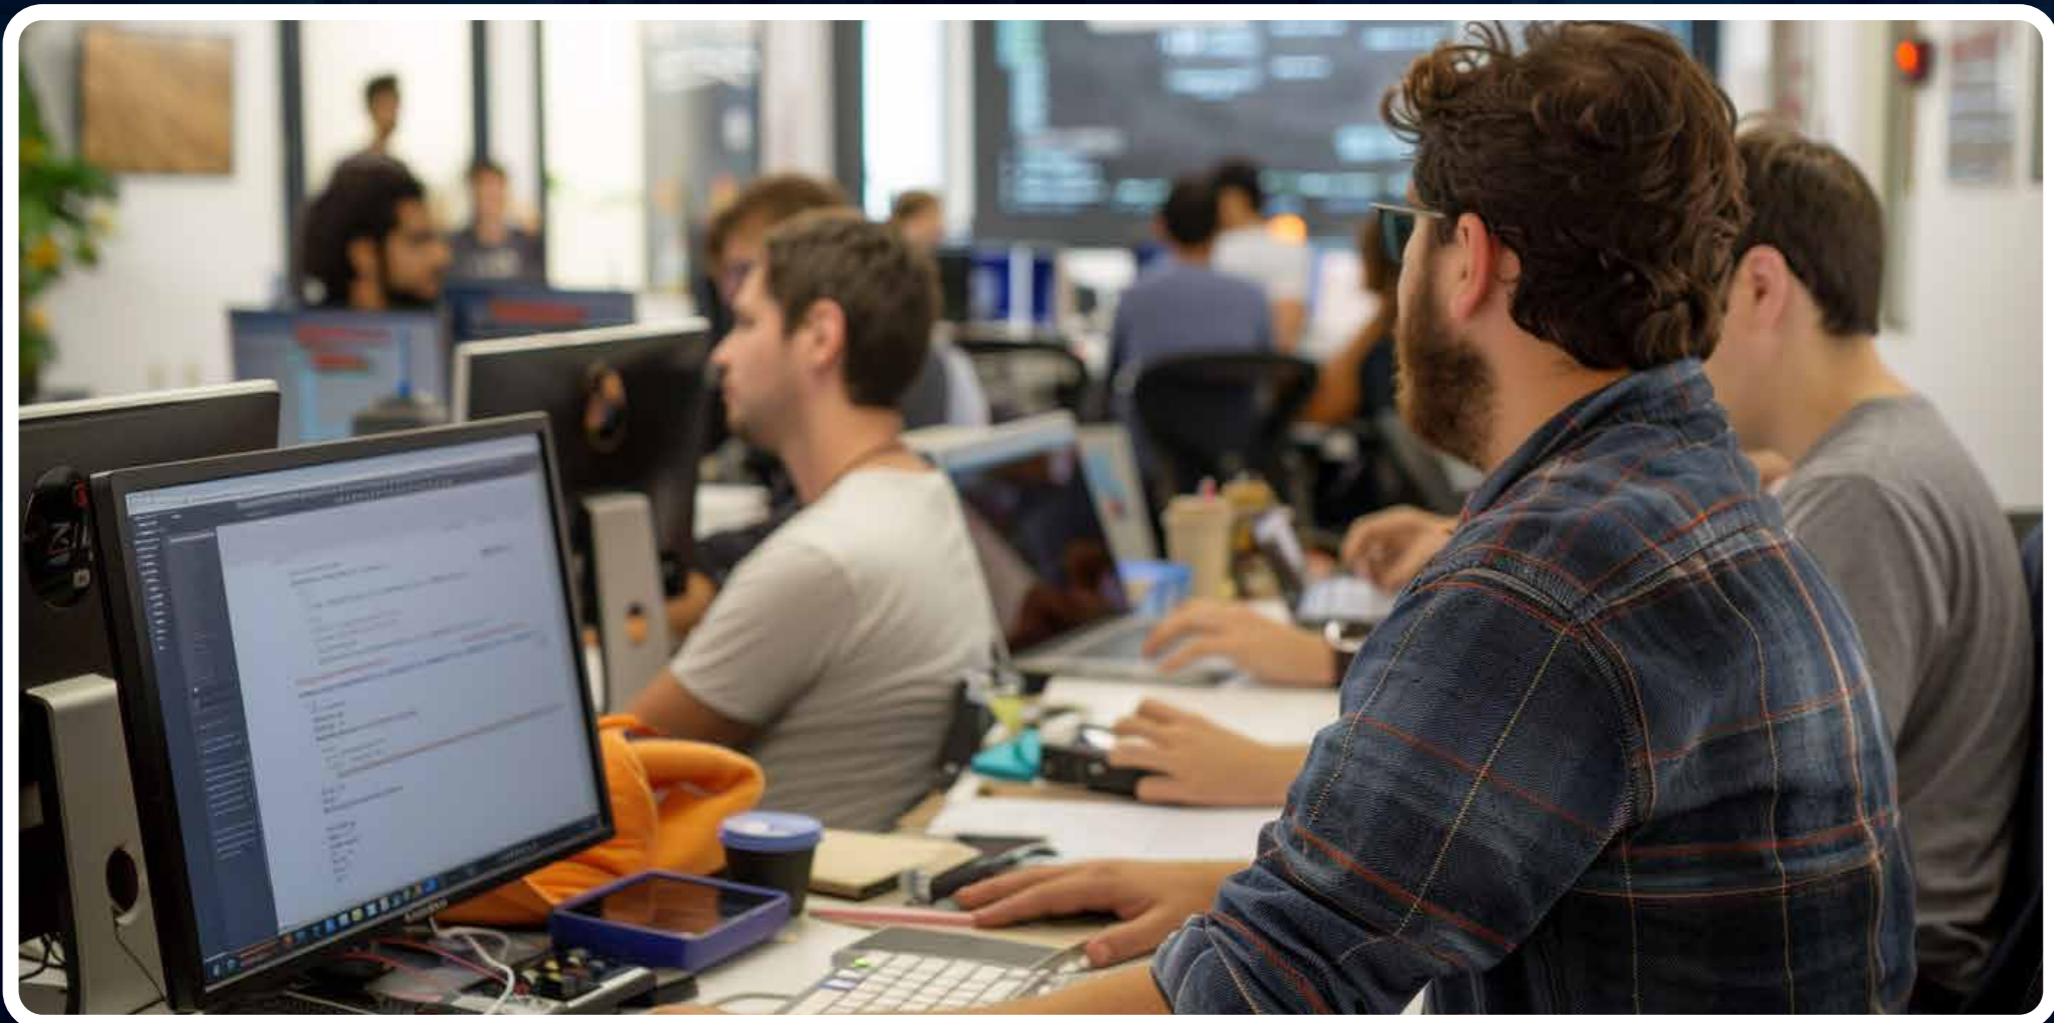

- Duration of the course - 3 months/
180 hours
- Mode of Teaching - Online

Who Can Study?

- The course is open to all graduates, including individuals currently pursuing other courses or working professionals
- As it is conducted online, the training sessions allow for flexible participation and interaction

Syllabus

- International Classification of Disease (ICD- 10- CM)
- Current Procedural Terminology (CPT)
- Healthcare Common Procedural Coding System (HCPCS)
- Basics of Anatomy, Physiology and Medical Terms and Terminology

What Can They Achieve?

- Students have access to support from experienced medical coders with live interactions
- Doubt Clearing Sessions, Open Book Examinations, and CPC Exam Assistance

Advantages of the Course

- Plenty of Job Opportunities with Lucrative Pay package
- Economical Fee Structure

About the classes

- 60% of the classes are held online, with the remaining dedicated to doubt-clearing sessions
- Industry integrated training content with experienced faculties as trainers
- Special training to improve typing skills
- Transparent and authentic evaluation system

Students can be placed in the following job roles:

- **Medical Coder:** They translate details from a patient's medical documents, such as physician's notes, lab reports, procedures, and diagnoses to universal alphanumeric medical codes
- **Medical Biller:** A person in charge of calculating and collecting payments for services like procedures, tests, or surgeries
- **Medical Records Technician:** They manage and organize patient health information
- **Health Information Technician:** They ensure the accuracy and security of patient health records
- **Medical Coding Auditor:** They are responsible for reviewing and auditing medical codes for accuracy and compliance
- **Medical Claims Analyst:** They analyze and process medical insurance claims
- **Medical Coding Trainer:** The person who educates and trains individuals in medical coding practices
- **Medical Coding Compliance Specialist:** They ensure adherence to coding regulations and standards
- **Medical Coding Quality Analyst:** They monitor and evaluate the quality of medical coding practices
- **Medical Coding Supervisor:** The person who oversees and manages a team of medical coders
- **Medical Coding Team Lead:** The person who is responsible for leading a team of medical coders in assigning and reviewing codes
- **Medical Coding Consultant:** Provides expert advice and guidance on medical coding practices
- **Medical Coding Educator:** Educates and trains individuals in the field of medical coding
- **Medical Coding Researcher:** Conducts research on coding practices and trends
- **Medical Coding Software Developer:** Designs and develops software solutions for medical coding processes
