

LUMINIS

INSTITUTE OF SKILL TRAINING PVT LTD
An ISO 9001:2015 Certified Co.

Learn **Medical Scribing**
from the **Finest Institute** in
Kerala

Course Duration: 12 Months

It is the policy of the state government to encourage medical research and skill training where healthcare professionals from our state are working all around the world with proficiency. There are a lot of people around us with academic brilliance, and it is very essential to utilize their qualities in the healthcare sector. Skill training courses and institutions can do a lot in this regard. I wish this endeavour all the success.

Veena George

Minister for Health

Women and Child Development Government of Kerala

We have reached a position where we are satisfied with our efforts to inspire our students to understand the importance of education beyond the concept of pen-and-paper learning. During these years, we have succeeded in uplifting the intellectual level and soft skills of our students to a professional level. We have witnessed an exponential increase in healthcare needs and call for a digital revolution to facilitate the legal/professional documentation of the healthcare processes that we follow. Only an expert can professionally document these processes, enabling operators to extract, analyze, and tabulate the data. The growth in demand for medical scribes and medical documentation specialists is proportional to the number of doctors.

India has paved the path to digitalizing the health sector by introducing the Arogya Setu app, the One Nation One Health Card scheme, etc. Here, the requirement for medical scribes is growing extensively. The gap between the increasing demand for medical documentation services and the dire shortage in the supply of trained medical scribes is widening at an alarming pace. This thoughtfulness has made us associate with the medical scribing industry leaders to create quality medical scribes through disciplined training and proper evaluation. LIST will continue its indefatigable journey to create vibrant, educated, and skilled scribes for the socio-cultural evolution that the present healthcare industry envisages.

Medical Scribing

A Medical Scribe is a revolutionary concept in modern medicine. A Medical Scribe is essentially a personal assistant to the physician; performing documentation in the EHR, gathering information for the patient's visit, and partnering with the physician to deliver the pinnacle of efficient patient care.

The 100% job oriented industry integrated education program in medical scribing conducted by ScribeAccred Certifications India Pvt. Ltd., facilitated at Luminis is approved by the STED Council of India and National Skill Development Corporation of India.
